

HOW TO DO A "VOICE TEXT" in FACEBOOK MESSENGER APP ON YOUR CELL PHONE:

(Note: This cannot be done on your PC.)

DIRECTIONS:

Open Messenger App on cell phone.

Search Person you want to reach out to.

Click on that person.

Look at TEXT box, to the left. Is there a MICROPHONE ICON? If not, press the circle with 3 dots in it.

The Microphone icon appears below.

Click on Microphone icon.

PUSH and KEEP PUSHING the RED RECORD BUTTON. Release when you are finished talking.

The VOICE TEXT is sent!

Example Voice Text:

"Hey, Sarah, this is Deb! Ok, so I am doing this really new fun thing that I thought you would like and I wanted to invite you to it. So, a few months ago MK launched Hydrogel Eye Patches & they're the hottest new product in the beauty industry! They like take 10 years off your under eyes & they are amazing! So, I had this idea to start teaching these Hydrogel Beauty Sessions...it's a fun introduction to beauty and skin care plus you get to experience the patches! I'm doing them on Fridays and Saturdays around the island in my kitchen, and I will have snacks and (beverages/coffee), PLUS you get a GIFT card just for coming!

Its super fun...I thought you would love it!"

(then wait for the response, and roll from there!)
